# PREZ SAYS

---

**JULY 2023**

It looks like summer has arrived. We got lucky getting the picnic in before hot weather. Steve did a good job getting the BBQ, and everyone else did great with the sides. There were about 40 in attendance. The food was good and so were the conversations. A good time was had by all. Now that summer is here and it is hot, we need to start planning for the gem show. We will be needing to put some committees together to send out advertising to event listings like (Rock & Gem) and Texas event flyers. We will need your help getting this done. If you have any of the rack cards left from last year bring them in so we can plan a reorder. Let's work together and make this the best show ever. See you at the meeting.

# JULY PROGRAM

---

## HELLO, ROCKHOUNDS

---

The program for July will be one of the most beautiful and priceless creations ever created!! I am speaking of the Romanov Faberge Eggs.

The Romanovs' extravagant royal Easter egg tradition began with Czar Alexander III, Emperor of Russia, in 1885. Alexander sought an Easter gift to surprise and delight his wife, Maria Feodorovna, who became a Russian empress after this marriage.

Alexander sought out a master goldsmith, Peter Carl Faberge to design a gift. Instead of a necklace or a ring, Faberge designed an astonishing creation, known as the Hen Egg, which was one of 50 eggs commissioned by the Romanov family between 1885 to 1916.

Most of the eggs were made of gold and decorated with diamonds, emeralds, sapphires, rubies and other precious stones. My program will show many of them.

So, if you want to see these fabulous works of art, please join us for a dazzling program.

Hope to see you there!!

Karen Anderson

# July Birthstone & Flowers

The July birthstone is the **ruby**; the flowers are the **larkspur** and the **water lily**.

*Ruby*

*Larkspur*

*Water Lily*

In ancient times, the ruby was regarded as the “king of gems” by the Hindus. All rubies are red and come in various shades of the hue. Ruby comes from the Latin word *rubeus*, which means “red.”

The ruby is among the hardest natural gemstones, second only to the diamond.

The larkspur can grow up to eight feet tall and comes in a variety of colors such as pink, white, or purple.

Water lilies float on the surface of natural waters such as ponds. They help deter algae growth and provide shade for wildlife below.
