PREZ SAYS

SEPTEMBER 2026

September is here, and it's hard to believe how quickly the year is moving along. The days will soon begin getting shorter, the air will start to cool, and before we know it, the beautiful colors of fall will be all around us. For those of us who enjoy getting outdoors and searching for interesting rocks, minerals, and fossils, the changing seasons are a wonderful reminder that there is always something new to discover. Every season has its own beauty, and every day has the possibility of uncovering a special find.

With fall approaching, the holiday season is also just around the corner. Before long, we'll be thinking about Halloween, Thanksgiving, and then the Christmas season. These holidays give us another opportunity to appreciate the people around us and the friendships we've made. I'm especially thankful for the wonderful people who make up our Rockhounds family. Our club is about much more than collecting—it's about sharing our interests, helping one another, enjoying good times together, and having a place where we feel welcome.

As we head into the busy months ahead, I hope everyone takes some time to enjoy the season, spend time with family and friends, and perhaps get out for one more collecting adventure before winter settles in. Thank you for continuing to make our club such a special group to be part of. May your autumn be filled with beautiful scenery, good friends, and plenty of rocks worth bringing home!

- Sara Verstuyft, President

September Birthstone & Flowers

The September birthstone is the **sapphire**; the flowers are the **aster** and the **morning glory**.

Sapphire

Aster

Morning Glory

Sapphires are a form of corundum and generally come in many shades of blue that run the gamut from light to dark. Sapphire was once believed to ward off evil and protect against poison.

Asters bloom in the late summer and early autumn and need little care to flourish. They are symbolic of powerful love.

A symbol of affection, morning glories live up to their name: they open their blooms in the early part of their day and then close them later in the afternoon.

Announcement

Sara asked to share a brief update with the club. We'll need to pause the mineral specimen collection for calendar photos this month. Her grandfather is currently in the ICU, and she's been back and forth to the hospital supporting her family. She's grateful for your understanding and looks forward to getting the calendar photo sessions going again soon.
